(416) 231-5264**

# **METHODOLOGY**

**survey of 302 randomly selected adults, 18 years of age or older, living within 2.5 kilometers of St. Paul's Hospital**

**interviews conducted on September 7-8th, 2005 using computer assisted telephone interviewing (CATI)**

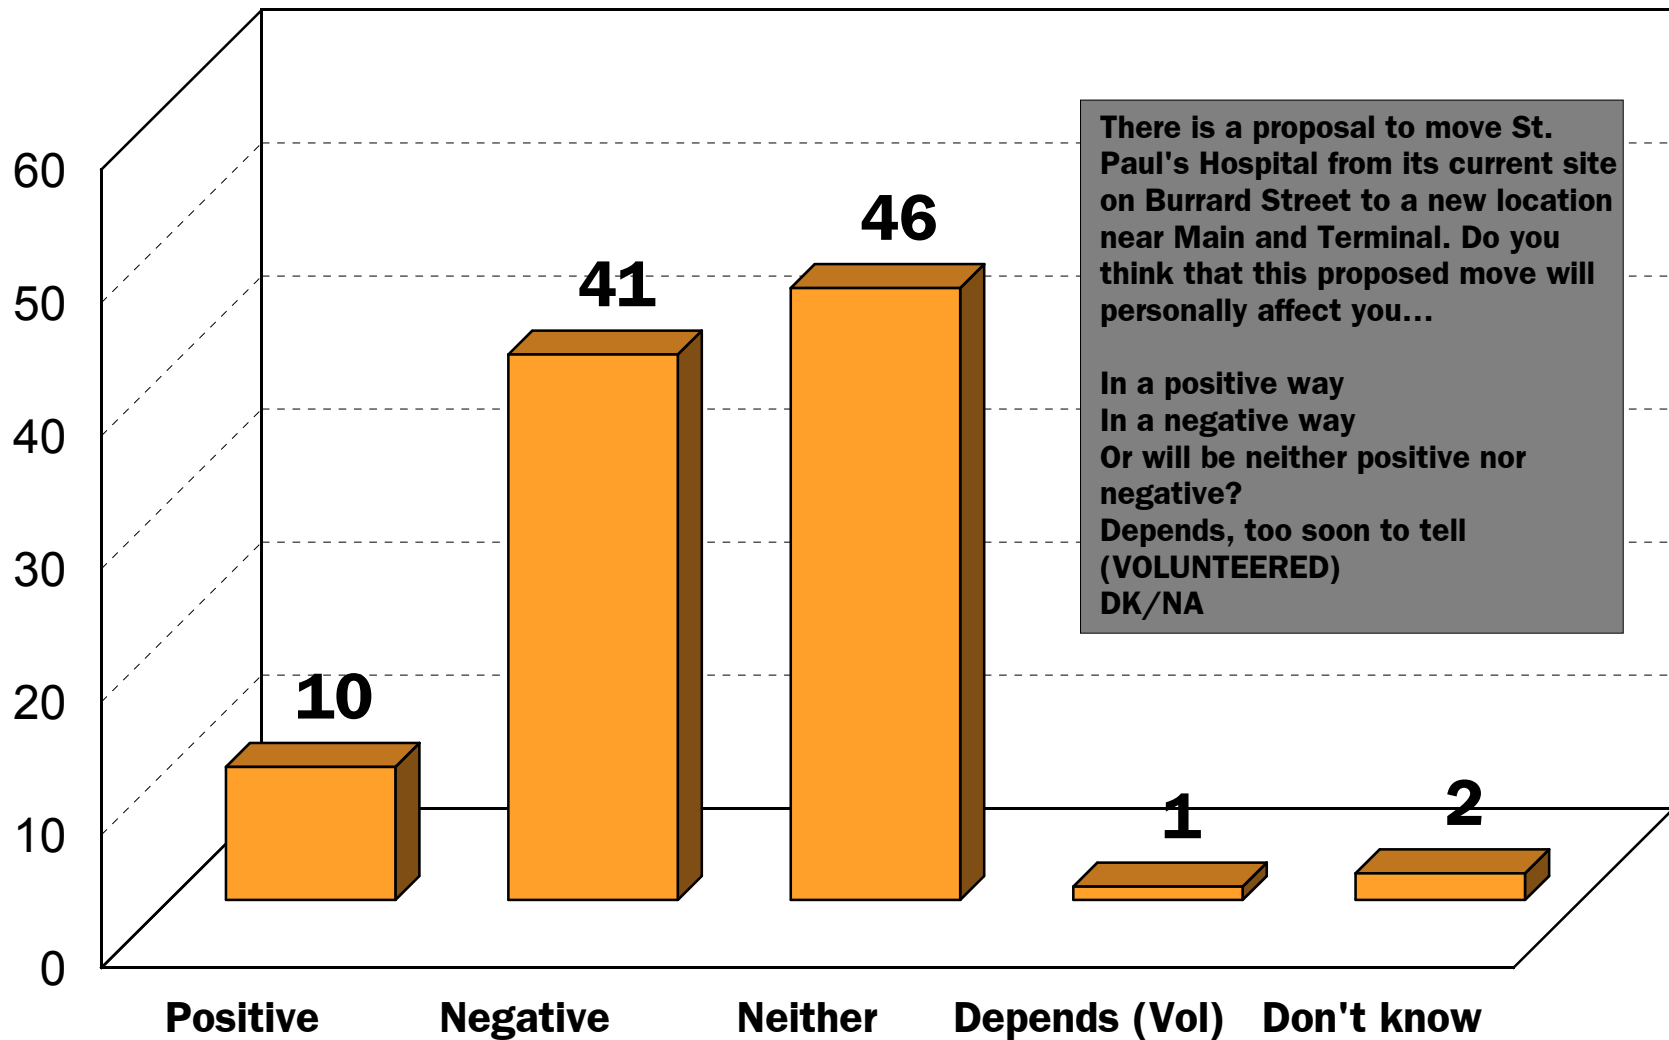

**margin of error for sample of 302 is  $\pm 5.6\%$  at 95% confidence interval**

**percentages must be at least 5.6% apart to be statistically different**

**margins of error are larger for demographic subsamples of the population and, therefore, should be interpreted much more cautiously**
